

NORTH SHORE WHEEL

SERVICE, SUPPORT AND SOLUTIONS

Introducing RAV1208 Rigid Air Valve

Your solution to damaged and leaky tire valve hardware

Certified to ISO 9001-2008 & CWB W59 Div. 2.1

The RAV Advantage:

- Designed to eliminate tire valve damage in harsh and abusive environments.
- Fit tested for clearance on many axles, hubs, wheel ends and machinery.
- Prevents damaged valves when handling with forklift, slings and chains.
- No more crushed valves during wheel installation.
- Reduces inflation time by as much as 50%
- The end to loose and worn valve spuds, rubber seals, o-rings.
- Saves you time and money.
